

The Chemical Age

Index to Volume XXXIX.

July—December, 1938.

A

Accident Congress in United States, 282
Accident Prevention at the Works of I.C.I. (Fertiliser and Synthetic Products), Ltd., Billingham, R. J. Woods, 240
Acetone and Butyl Alcohol from Oranges, 390
Activated Carbon from Bagasse, 450
Active Carbon, 179
Admiralty Laboratory, New, 470
Advanced Chemistry, Specialised Courses in, 200
Aeroplane Fabric Dopes, 7
A.R.P., Chemical Work in, 337
Alkali, Etc., Works, 9
Alumina Ware, Sintered, 261
Analysed Reagents, 47
Analysis, Chemical, Symposium on Modern Methods of, 138
Analysis of Paint Materials, 427
Analysis, Spectrographic, 335
Analytical Work of the Government Laboratory, 333
Anglo-American Trade Agreement, 413
Anglo-Argentine Trade, 118
Anglo-U.S. Trade Treaty, 395

ANNIVERSARIES—

Joule, James Prescott, 493
Nobel, Alfred Bernhard, 453
Stenhouse, John, 533
Vogel, Hermann Wilhelm, 473
Annual Chemical Dinner, 410
Anti-Corrosion Process, New, 234
Argentina, Chemical Trade with, 178
Association of British Chemical Manufacturers, 311
Atmospheric Pollution, With Special Reference to Sulphur and Grit, Birkett Wylam, 196
Australian Tariff Amendment reduces Chemical Products Duty, 487

AUTHORS—

Armstrong, E. F., 1938—Retrospect and Futurity, 503
Bentley, A. O., and Cox, D. H. S., Progress in Synthetic Drugs and Pharmaceuticals, 519; Bhattacharya, R., and Gidvani, B. S., Modifications of Lac with Higher Fatty Acids, 123; Booth, R. Gordon, The Chemistry of Vitamins, 463; Brittain, Eric H., Recent Developments in Solvents and Plasticisers, 524
Clark, F. W., and Guinot, H., Azeotropic Distillation in Industry, 351; Collingridge, George S., Shoe Polishes and Creams, 3; Textile and Solvent Soaps, 257; "Consultant," Chemical Works Safety Needs Continuous Attention, 233; Cox, D. H. S., and Bentley, A. O., Progress in Synthetic Drugs and Pharmaceuticals, 519; Cumming, Dr. W. M., and Rumford, F., The Trend of Chemical Engineering, 253
Dreaper, W. P., The Use of Bibliographies, 448
Faraday, P. Michael, The Rating of Industrial Concerns, 293; Fitzmaurice, R., The Trend of Progress in the Building Industry, 244
Garner, T. L., Inorganic Accelerators in Rubber Compounding, 175; Organic Accelerators in the Rubber Industry, 280; Softeners in Rubber Compounding, 367; Garvie, W., The Wood Naval Stores Industry,

Authors—continued

387; Gidvani, B. S., and Bhattacharya, R., Modifications of Lac with Higher Fatty Acids, 123; Gidvani, B. S., A Note on the Bleaching of Lac, 212; Gilmour, R., Chemical Engineering in the Fermentation and Distilling Industries, 215; Grant, Julius, The Wood-Cellulose Industries and some of their Modern Ramifications, 45; Guinot, H., and Clark, F. W., Azeotropic Distillation in Industry, 351
Johnson, H. F., and Kleinschmidt, R. V., Gas Absorption in Wet Cyclone Scrubbers, 115
Kleinschmidt, R. V., and Johnson, H. F., Gas Absorption in Wet Cyclone Scrubbers, 115
Lampitt, L. H., The Trend of Progress in Food Science, 243; Lassberg, Professor J. Von, Development in the German Cellulose Industry, 101; Leverhulme, Viscount, The Relation of Science to the World of To-day, 24; Levinstein, Herbert, Sir William Perkin's Adventure and What Has Come of It, 425
Martin, D. A., The Laboratory in the Dyeing Industry, 83; Some Finishing Problems in the Dyeing Industry, 191; Maxted, E. B., The Nitrogen Industry in 1938, 511
Parker, A. G. S., Wooden Barrels and Kegs, 157; Parrish, P., Conditions in the Heavy Chemical Industry in 1938, 505; Peck, W. C., From Flask to Plant, 87; Review of Chemical Engineering for 1938, 515
Rudge, Dr. E. A., Training Scientists for Industry, 275; Rumford, F., and Cumming, Dr. W. M., The Trend of Chemical Engineering, 253
Sproxtton, Foster, The Rise of the Plastics Industry, 25; "Stone-Marten," Chemicals in Fur Dyeing, 405
Wakelin, J., Dyestuffs in Prepared Form, 331; Gas Reactions Applied in the Textile Industry, 211; Some Industrial Applications of Quaternary Amines, 119; Urea and Formaldehyde as Textile Auxiliaries, 481; Woods, R. J., Accident Prevention at the Works of I.C.I. (Fertiliser and Synthetic Products), Ltd., Billingham, 240; Wright, A. G., Instruments for the Operation of Chemical Plant, 231; Metal Drums and Cans for Transport and Storage of Chemicals, 153; Wylam, Birkett, Atmospheric Pollution, with Special Reference to Sulphur and Grit, 196
Yarsley, V. E., Trends in the Plastics Industry, 255
Zotos, F., The Electrolytic Manufacture of Hydrogen Peroxide, 291

Azeotropic Distillation in Industry, H. Guinot and F. W. Clark, 351

B

Bagasse, Activated Carbon from, 450
Bakelite Materials, Recent Progress in, 368
Barclay, Mr. W. R., Death of, 242
Beit Memorial Trust, 90
Belgian Congo, Chemical Trade in the, 162
Benn, Mr. John, 71

Benn Bros., Ltd., 89; Annual Meeting, 120
Benzene, The Structure of, 5
Bibliographies, The Use of, W. P. Dreaper, 448
Biochemical Society in 1938, 514
Bismuth and Tin, Alloying of, 262
Bleaching of Lac, A Note on the, B. S. Gidvani, 212
Bleaching of Wool, 464
Books Received: 62, 93, 112, 159, 172, 188, 225, 268, 308, 364, 422, 435, 455, 477, 536

BOOK REVIEWS—

Brewing: Science and Practice, Vol. I. Brewing Materials (H. Lloyd Hind), 451; British Chemical Industry (Sir Gilbert T. Morgan and David Doig Pratt), 73
Chemical Analysis of Foods (Henry Edward Cox), 181; Chemical Analysis of Foods and Food Products (Morris B. Jacobs), 452; Chemical Engineering Economics (Chaplin Tyler), 471; Crystal Chemistry (Charles W. Stillwell), 8
Der Gaskampf und die Chemischen Kampfstoffe (Dr. Julius Meyer), 8; Der Ultraschall und seine Anwendung in Wissenschaft und Technik, 126; Die Bierhefe als Heil-Nähr- und Futtermittel (Dr. J. Schulein), 278; Dipole Moments (R. J. W. Le Fevre), 52
Elementary Inorganic Chemistry (Syllvanus J. Smith), 181; Explosives, Matches and Fireworks (Joseph Reilly), 52
Feuerfeste Baustoffe Silikatischer und Silikathaltiger Massen (Dr. Claus Koeppl), 8; Fluorescence and Phosphorescence (E. Hirsch), 451
Gas Analysis (A. McCulloch), 8; General Chemistry (Eugene P. Schech and William A. Felsing), 181
Industrial Chemistry (William Thornton Read), 451; Inorganic Colloid Chemistry (Vol. III), (H. B. Weiser), 278; Introduction to Chemistry (John Arrend Timm), 73
Kelly's Directory of the Chemical Industries, 1938, 278
Laboratory Manual of Qualitative Analysis (John H. Voe), 181; Lubricating Oil Tests and Their Significance (J. E. Southcombe), 53
Micromethods of Quantitative Organic Elementary Analysis (Joseph B. Niederl and Victor Niederl), 8
Notes on Qualitative Organic Analysis (E. R. Storer), 126
Official Methods of Analysis of the International Society of Leather Trades' Chemists, 52; Organic Chemistry (Henry Gilman), 73; Organic Chemistry (Frederick Prescott and Dudley Kidge), 73
Practical Methods for Deposition of Factory Equipment (F. W. Gordon), 52; Practical Organic Chemistry (A. J. Mee), 52
Soils of Palestine (A. Reifenberg), 52; Spectrochemical Analysis in 1938 (F. Teyman), 471; Standard Methods for Testing Tar and Its Products, 451
Tables for Qualitative Analysis (James Bruce and Harry Harper), 52; Textbook of Organic Chemistry (G. H. Richter), 471; Thorpe's Dictionary of Applied Chemistry

Book Reviews—continued

(J. F. Thorpe and M. A. Whiteley), 278
Utilisation of Fats (H. K. Dean), 181
Van Nostrand's Scientific Encyclopedia, 126
Boys' Hostels Association, 32, 48
British Association of Chemists, 431
British Association Meeting at Cambridge, 135, 163
British Chemical Industry, Some Aspects of, 160
British Industrial Plastics, Ltd., 429
British Overseas Chemical Trade in June, 72; July, 142; August, 246; September, 324; October, 394; November, 490
British Road Tar Association, 376
British Standards Institution, 6
British Standard Chemical Symbols and Abbreviations, 446
British Standard Specification for Mild Steel Drums for Lubricating Oils, 446
Building and Road Research in Great Britain, 33

C

Calcium Metaphosphate, 89
Camphor, Catalytic Dehydrogenation of, 372
Canada, Chemical Manufacture in, 531
Canada, Fuel in, 245
Canada, Mineral Production in, 223
Canada, Symposium on the Natural Resources of, 28
Canada's Chemical Trade, 409
Canadian Chemical Industry, 89
Carbon, Active, 179
Carbon Disulphide, 164
Carcinogenic Agents, Chemical, 392
Casein, Technically useful, 446
Catalytic Development, Important, 487
Cellulose Acetate Films, 118
Cellulose, Cuprammonium Dispersions of, 176
Cellulose Glycolic Acid, The Sodium Salt of, 484
Ceramic Pigments, 69
Charcoal, Activation of, 322
Chemical Club, 354, 464
Chemical Engineering in the Fermentation and Distilling Industries, R. Gilmour, 215
Chemical Engineering for 1938, Review of, W. C. Peck, 515
Chemical Industry, Canadian, 89
Chemical Manufacture in Canada, 531

CHEMICAL NOTES FROM FOREIGN SOURCES—

Belgium, 110, 323, 433
Bulgaria, 13, 323
Czechoslovakia, 13, 75, 110, 126, 221
Denmark, 323
Estonia, 110
Finland, 60, 221, 323, 339, 473
France, 60, 110, 126, 160, 221, 323, 397, 533
Germany, 13, 31, 110, 183, 203, 221, 301, 533
Holland, 110, 221, 339, 453
Hungary, 110, 160, 183, 263, 301, 453, 533
Iceland, 453
Italy, 31, 75, 221, 301, 397, 433
Japan, 60, 110, 221, 339, 397
Jugoslavia, 13, 60, 110, 160, 221, 323
Latvia, 75, 183, 323, 533

Chemical Notes from Foreign Sources—continued

Lithuania, 13, 183
 Manchukuo, 397
 Norway, 221, 453, 473
 Poland, 13, 75, 110, 126, 183, 221, 301, 433
 Roumania, 221, 397
 Russia, 13, 126, 221, 301, 423
 Spain, 75
 Sweden, 110, 126, 301, 323, 433, 473, 533
 Switzerland, 75

Chemical Patents in India, 218
 Chemical Plant, Instructions for the Operation of, A. G. Wright, 231
 Chemical Research Laboratory, Directorship, 355
 Chemical Society, 489, 510; Message from the President, 503
 Chemical Trade, Canada's, 409
 Chemical Trade During 1938, 528
 Chemicals in South Africa, 50, 242
 "Chemists and Cargoes," 338
 Chesterfield Tube Co., Ltd., 465
 Chick-Martin Disinfectant Test, New Standard for, 339
 China Clay Industry Veterans, 373
 Clays, Stiff Mud, 262
 Coal Analysis, Methods of, 322
 Coal, Combustion of, 329
 Coal, Research on the Preparation and Utilisation of, 485
 Coal Utilisation Experimental Station, New, 354
 Cobalt, Copper and Ferrous Iron, Detection of, 86
 Coke Oven Managers' Dinner, 353
 Combustion Phenomena of Higher Hydrocarbons, 369

COMPANY NEWS—

Alpha Cement, Ltd., 500; Anchor Chemical Co., 93; Anglo-Alpha Cement, 477; Anglo-Chilean Nitrate Corporation, 460; Anglo-Continental Guano Works, Ltd., 17; Associated Dyers and Cleaners, Ltd., 402, 422, 440; Attock Oil Co., Ltd., 288
